# ABOUT COMPANY

LRT Tech is a proudly Egyptian company founded in 2025, specializing in Electronics as a Service. We combine cutting-edge technology with a strong distribution network to deliver unmatched value across Egypt's electronics market. With a highly skilled and dedicated team, we have built a reputation for reliability, innovation, and excellence. Our strategic partnerships with leading global brands, along with exclusive agents and major clients, position us as one of the most trusted names in the industry. At LRT Tech, we are not just distributors; we are technology enablers, driving growth, connectivity, and success across every partnership we build.

# COMPANY VISION

To become the most trusted and innovative Electronics as a Service provider in Egypt and the MENA region, leading the transformation of the electronics distribution landscape.

We strive to empower businesses through technology, strategic partnerships, and intelligent distribution, ensuring that every product, partner, and client contributes to building a smarter and more connected future.

The logo for LRT features the letters "lrt" in a white, lowercase, sans-serif font. To the left of the "l", there is a cluster of small, semi-transparent red dots of varying sizes, creating a stylized "dot" effect.

# COMPANY MISSION

Deliver cutting-edge Electronics as a Service solutions that combine innovation, quality, and reliability.

Strengthen our position through strategic alliances with leading global brands, exclusive agents, and major clients.

Empower our team with continuous learning and excellence-driven culture to maintain top performance and customer satisfaction.

Drive market growth and digital transformation through efficient distribution, advanced analytics, and customer-centric strategies.

Commit to sustainability, integrity, and long-term partnerships that shape the future of technology in Egypt and beyond.

# Core Values

## Innovation

We embrace creativity and cutting-edge technology to deliver smarter and more efficient solutions that redefine the electronics distribution industry.
